Artwork Requirements

WHAT WE NEED:
Any logos, layouts, content requirements, pantone colours or branding specifications.

HOW TO SUPPLY YOUR ARTWORK TO US:
Email to len@esignsqld.com.au

IMPORTANT FILE SET-UP INFORMATION:
1. File types required - eps, ai or pdf (vector formats).
   If you cannot supply vector files, we can receive JPEGs but they need to be saved not less than 150dpi resolution at actual size. (please be aware the finished product may be slightly pixilated) **PLEASE NOTE:** JPEG files are not suitable if you require vinyl cut lettering. In this case, supply us with the font name.
2. Supply all image files in high resolution, recommended minimum of 150dpi at actual size.
3. Artwork is required to scale, to match size detailed on quotation.
4. All files to be supplied flattened.

Please note that the above requirements are necessary for us to provide a high quality finish. If we receive your file and it doesn't match the above specifications, an additional charge will be required to get your file to a print ready standard.

If you would like to discuss the requirements of your artwork, please call Len on 0434 245 192 or email
len@esignsqld.com.au

Thank you, and we look forward to working with you, from the team at E-Signs and Designs
